

KANHAIYA KUMAR SINGH

Software Development Engineer Intern • Java Developer • Full Stack Developer (MERN) • Backend Developer

Jharkhand, India | 9142417247 | skanahaiya05@gmail.com

Portfolio: kanhaiyasingh-portfolio.vercel.app | LinkedIn: linkedin.com/in/kanhaiya-singh-78a8b72a5

Professional Summary

B.Tech Information Technology student (2023–2027) with hands-on experience in Data Structures & Algorithms using Java, full-stack MERN development, and RESTful API integration. Skilled in building responsive web applications, secure backend systems, and scalable API-driven solutions. Strong understanding of Object-Oriented Programming, DBMS, Operating Systems, and Computer Networks. Seeking Software Development Engineer, Backend Developer, and Full Stack Developer internship opportunities.

Education

Bachelor of Technology in Information Technology

Haldia Institute of Technology, West Bengal, India | 2023–2027

Senior Secondary (Class XII – CBSE)

Percentage: 80% | 2021–2022

Secondary (Class X – CBSE)

Percentage: 89.2% | 2019–2020

Technical Skills

- **Languages:** Java, JavaScript, C
- **Frontend:** React.js, HTML5, CSS3, Responsive Design
- **Backend:** Node.js, Express.js, FastAPI, REST APIs, JWT, bcrypt
- **Database:** MongoDB, SQL
- **Tools:** Git, GitHub, Postman, VS Code
- **Core CS:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, MVC Architecture

Projects

ElderGuard AI — Elderly Health Monitoring System | React.js, FastAPI, MediaPipe, REST APIs (2024)

- Developed a responsive React.js dashboard to visualize AI-generated health metrics including heart rate and SpO₂ through contactless monitoring techniques.
- Integrated React.js frontend with FastAPI backend using REST APIs to enable real-time communication between monitoring, alert, and notification modules.
- Implemented automated WhatsApp-based emergency alert workflows with backup contact escalation and medicine reminder functionality.
- Collaborated in a multidisciplinary team to develop an AI-powered healthcare solution focused on elderly monitoring and safety.

Recipe Sharing Platform | React.js, Node.js, Express.js, MongoDB (2024)

- Developed a full-stack recipe management platform supporting create, read, update, and delete operations through RESTful APIs.
- Integrated MongoDB database for efficient storage and retrieval of recipe information.
- Implemented recipe favorite/like functionality and responsive user interface components for seamless user experience across devices.
- Implemented secure user authentication and authorization using JWT and bcrypt for login, registration, and account management.

Certifications & Achievements

NPTEL Programming in Java – IIT Kharagpur (Elite + Gold)

- Achieved a perfect score of 100/100, demonstrating strong understanding of Java programming, Object-Oriented Programming, and problem-solving concepts.

AI For Everyone Hackathon

- Won Best AI Systematic Solution Award and People's Choice Award for ElderGuard AI.
- Contributed to frontend development and FastAPI integration.
- Team awarded ₹10,000 prize for developing an innovative AI-powered elderly healthcare monitoring solution.
